cial to the Indianapolis Journal. CINCINNATI, March 21.-It developed to-day that the hanging of Scott Jackson and Alonzo Walling at Newport, Ky., yesterday did not end the Pearl Bryan drama. Will Wood, of Greencastle, Ind., will be the chief actor. The last act will be played at Indianapolis. Since the execution of Jackson and Walling the friends of these men have determined to prosecute Wood, who was charged by Jackson with Pearl Bryan's betrayal and getting Jackson Among the effects of the dead men are anapolis for use before the federal grand was indicted over a year ago on the charge of abetting an abortion. Wood abouts is unknown. It is proposed to get the secret service of the government after him. The Bryan family, it is said, also desires to have Wood prosecuted.

The letters, which will be presented to the grand jury, were printed when the men "My Dear Dusty-Surprised, eh? AT GREENCASTLE.

Great Demand for Newspapers-Return of Mrs. Jackson and Mrs. Post.

GREENCASTLE, Ind., March 21.-Mrs. were worn out and greatly fatigued by the

that they were supposed to bring, when they came, the ashes of their late relative. Mrs. Jackson was not so prostrated as was expected and walked alone from her carriage to her saddened home.

The people of Greencastle devoted most of to-day to reading and discussing the scenes and incidents of the execution of Pearl Bryan's murderers. Perhaps never in the history of this town has there been such a heavy sale of newspapers on the streets as there was this morning. The working people, as well as business men and citizens generally, who during the week are busy, were out this morning, bent on talking, and there never was in this city so that of the execution.

The Greencastle representatives who witnessed the execution all arrived home on the night trains and they were surrounded all morning by crowds listening to the de-tails and incidents of the execution. The opinions of these gentlemen are unanimous that the two men hanged yesterday were guilty beyond doubt. They state the nerve displayed by Jackson and Walling was un-paralleled, and that the brazen effrontery displayed by the criminals in the last few moments was enought to disgust anyone who had before entertained the belief that one or both of them were innocent. Sheriff Piummer, of Newport, has a warm spot in the heart of each Greencastle citizen who attended the execution, and they all speak in the highest praise of the accommodating

Greencastle is ordinarily a church-going city, but on this Sunday many a man who usually has a certain seat in a certain pew in a certain church purchased a newspaper and sought a quiet nook in which he could read and digest the closing act of the celebrated case. His next impulse was to talk to his neighbor of his impressions of the matter, and thus the day was largely spent. One point that struck a particularly nteresting chord was the announcement that there was a probability that Will Wood would be prosecuted. During the excitement of the last forty-eight hours his name has often been mentloned and his whereabout asked, and the well-worn question put forth as to whether he would ever be molested by the law. The statement that his attorney had admitted to receiving certain letters and had visited the postoffice inspector's office in Cincinnati produced the keenest interest in the case. Opinions are freely expressed in his case, and, while many say that they believe he should be punished to some extent, there are others with the matter cannot and will not be Wood uttered during their trip to Newport

The cremation of the body of Scott Jackson was the most interesting subject since his hanging. The almost universal opinion here is that the family of the dead man acted wisely and politic in taking the course If the body had been shipped to this city ment and discussion of the matter. In one big room Mr. and Mrs. Artman. Mrs. Rainwater and her daughter, Fannie Gentry, and a ten-year-old daughter of the Artmans were in bed. Entering the room and leveling his gun at the aged Mrs. Artman, he shouted: "D- you, I've got you all now!" Mrs. Artman threw up her hands as he fired. The charge tore off all her finers and carried away one side of her head. She was instantly killed. Turning around, he literally blew his wife's head off with the other charge in the gun. Then drawing a revolver, the murderer fired two bullets into the body of Fannie Gentry, one passing through her lungs and the other entering the brain. She, too, died instantly, For some unknown reason Rainwater spared the aged Mr. Artman and the young

The murderer then deliberately reloaded both barrels of the shotgun and went out into the yard. There he encountered Johnnie Artman, whom he had left for dead, The boy had crawled almost to the door. Rainwater killed him with another charge boy's head. The murderer completed his his little daughter, who were almost beside his family of his murderous intentions.

AEGEAN SEA STORM TOSSED

Trouble Brewing on All the Islands of the Archipelago-Colonel Vassos Still Defying the Powers.

LONDON, March 22 .- The war ships of he powers yesterday morning began a 'pacific" blockade of the Island of Crete. The Athens correspondent of the Times says a strong gale is blowing across the Aegean sea, which makes the blockade exceedingly difficult. It is reported that the idmirals purposely refrained from interfering with the vessels which recently landed provisions in Crete, one having discharged its cargo at Akrotiri, almost under the eyes of the admirals. The necessity of removing the Turkish troops from the island becomes more and more imperative. The foreign war ships have already arrived at Crete, and the Sultan should be induced, the correspondent says, to make a voluntary recall of his troops. Greece might then be willng to recall Colonel Vassos.

A PACIFIC BLOCKADE.

What the Action of the Powers in Re-

A pacific blockade, such as the powers of Europe began to enforce against the Island of Crete yesterday, is one of the curiosities of modern international procedure. something anomalous, half war and half peace, says the Springfield Republican. It is imposed upon only the weakest of nations whom strong powers desire to coerce without openly declaring war against, and would tolerate an instant without an immediate resort to open hostilities. It has never been tried on a strong nation, and it never will be, yet during the present century there have been several cases of pacific blockade, and when enforced under certain conditions it is now recognized as a legitimate weapon of pressure by the

for Pension Agent at Indianapolis-Nowlin to Be Revenue Collector.

Special to the Indianapolis Journal. WASHINGTON, March 21 .- The fact that

the McKinley law is leading Democratic congressmen and editors to a revival of the false and misleading statements in which they have at various tmes asserted that the McKinley law was a failure as a revenue producer. It may be worth while, now that the new bill, based upon that law, is to be discussed in detail, and now that these charges are being revived at the very beginning of the discussion, to show just

Oct. 1, 1890. On Nov. 6, 1892, a free-trade Congress and President were elected under a pledge of a repeal of the Mikinley act and the abolition of protective duties. On March 4, 1893, President Cleveland was in-Kinley law and a substitution of low tariff rates for the protective duties which it had maintained. During all the months following the election and inauguration of President Clevepanic and collapse, business was suspended, banks were tumbling and people were omitting to purchase imported goods, thus reducing the importations and consequently day that the free-trade Congress met, nine enactment of low tariff rates, the McKinley law supplied, as it had done during its entire existence, ample revenues for the running expenses of the government. Even in the face of the panic which swept over the country after the election and inauguration of Cleveland and in the face of the great reduction of importations which was consequent upon the panic and the prospective change in the tariff rates, it held its own ground as a revenue producer until the free-trade Congress met and the work ally begun. In but a single month from the date of its enactment, in 1890, until the meeting of the free-trade Congress, in August, 1893, did it produce less than \$1,000,-000 revenue for each business day. From the date of the meeting of the free-trade Congress, in no single month, except in the last one of its existence, did it produce an average of \$1,000,000. The line of its failure is sharply marked as absolutely coincident with that of the meeting of the free-trade Congress called to destroy it. That Congress met Aug. 7, 1803. During the seven months of that year preceding its meeting the receipts under the McKinley law averaged \$31,000,000 per month, while during the remaining five months of that year, following the meeting of that Congress the receipts averaged less than \$24 .-000,000 per month.
